**Manufacturer Safety recall issued**

- NHTSA #17V576
- Recall #AH10 REPLACE FILTER FLANGE OF FUEL PUMP
- Status: Remedy Available

Click here or call 1-800-PORSCHE to locate an authorized Porsche dealer near you.

[Learn more about this recall](#)

**Description:** Fine hairline cracks can appear, after an extended period of use, on the filter flange of the fuel pump of the affected vehicles.

External aging exposure and oxidization reduces the component strength over an extended vehicle life. Additionally, fuel components intrude into the fuel filter flange material under pressure from the inside and cause tension within the component Porsche believes that the combination of both may, over time, eventually lead to the formation of small cracks, allowing fuel to seep from the fuel filter flange. Fuel leakage in the presence of an ignition source may cause a risk of fire

**Remedy:** Vehicles affected by this action will be recalled to the workshop to have filter flanges exchanged with newer filter flanges and a protective film will be fitted to the parts.

Porsche Cars North  
America

**Manufacturer Safety recall issued**

- Recall #ANB4 RETROFIT SEALING CAP ON FRONT LEFT

- AND RIGHT MAIN HEADLAMP

Click here or call 1-800-PORSCHE to locate an authorized Porsche dealer near you.

⊖ [Learn more about this recall](#)

**Description:** On the affected vehicles, it is possible that a sealing cap, which prevents the horizontal adjustment of the main headlights, was not fitted during vehicle assembly. If this is the case, certain legal requirements in the USA and Canada markets are not met. In order to bring the main headlights into compliance with the legal requirements, the installation of the sealing cap must be checked and, if necessary, a sealing cap must be retrofitted to the adjusting screw for the horizontal adjustment of the headlights.

It is possible that a sealing cap, which prevents the horizontal adjustment of the main headlights, was not fitted during vehicle assembly.

**Remedy:** The installation of the sealing cap must be checked and, if necessary, a sealing cap must be retrofitted to the adjusting screw for the horizontal adjustment of the headlights.

## Glossary

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
