**Description:** Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2019-2021 G-Class (463 platform) vehicles equipped with rear door latches for the US market, the rear doors might not open, close, or lock according to current production specifications. Depending on the tolerances of the components within the latches the rear doors might not be fully closed even though they appear to be closed, and could open while driving under certain types of driving maneuvers and road conditions, increasing the risk of a crash or injury. Further, if the child safety lock is activated on the rear doors and excessive force is used to attempt to open the doors from inside the vehicle, the internal latching components may deform and prevent the rear doors from being opened from the inside, increasing the risk of injury in the event of a crash. An authorized Mercedes-Benz dealer will replace all the rear door latches on the affected vehicles with a door latch that incorporates an enhanced design, including those previously replaced or repaired under warranty.

Depending on the tolerances of the components within the latches the rear doors might not be fully closed even though they appear to be closed, and could open while driving under certain types of driving maneuvers and road conditions, increasing the risk of a crash or injury. Further, if the child safety lock is activated on the rear doors and excessive force is used to attempt to open the doors from inside the vehicle, the internal latching components may deform and prevent the rear doors from being opened from the inside, increasing the risk of injury in the event of a crash.

**Description:** Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2019-2022 G-Class (463 platform) vehicles, the front axle wiring harness might contact an auxiliary oil cooler. In this case, the wiring harness might contact an auxiliary oil cooler and chafe, which could potentially damage the wiring harness over time. As a result, impairment of ABS and ESP functionality cannot be ruled out, which could potentially increase the risk of a crash. An authorized Mercedes-Benz

dealership, will inspect the front axle wiring harness on the affected vehicles and replace it, if necessary. After inspection a protective sleeve will be installed, if the wiring harness is not replaced.

In this case, the wiring harness might contact an auxiliary oil cooler and chafe, which could potentially damage the wiring harness over time. As a result, impairment of ABS and ESP functionality cannot be ruled out, which could potentially increase the risk of a crash.

**Remedy:** An authorized Mercedes-Benz dealership, will inspect the front axle wiring harness on the affected vehicles and replace it, if necessary. After inspection a protective sleeve will be installed, if the wiring harness is not replaced.

## Glossary

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
